Great Falls Clinic	Eye, Ear, Nose and Throat
L. W. Crouch, D.D.S.	Dentist
Minnie Wallette	Resident Nurse

Report of Local Executive Board

October 31, 1960

The school year 1959-1960 reflects continuous progress both from an educational standpoint and also from a physical plant and safety point of view.

The number of students remains fairly constant and in the same proportions. The total enrollment in September 1960 was 97 students compared to 99 the previous year with 63 in the deaf department and 34 in the blind department, or a 2 to 1 ratio.

In addition to maintaining a sound and progressive policy of education and training, the outside activities of each student is well planned and supervised. Outside play and recreation is a vital factor in maintaining not only proper mental fitness but physical fitness as well at the school. The good health of all the children has been very carefully guarded and supervised.

Regarding the physical plant, two items deserve attention. All halls and stairway in the main building were sprinklered during the year. This will permit children to vacate the building in an orderly manner from the upper floors in the event of a fire.

A new one story building for classrooms was put into use this fall. The construction appears to be plain and inexpensive but entirely adequate and practical.

We consider this school year entirely satisfactory and successful.

**Local Executive Board of the Montana
School for the Deaf and Blind**
Geordies K. Kotz (Mrs. O.B.), President
John E. Warner, Secretary
Art Jardine, Member.

Superintendent's Report

OCTOBER, 1959

The Montana School for the Deaf and Blind opened Wednesday, September 3, 1959. Enrollment now stands at 99 as compared to 98 at the same date last year. The enrollment divides into 65 in the Department for the Deaf and 34 in the Department for the Blind.

SCHOOL ACTIVITIES

Since the only staff change was one teacher, school work and play have resumed smoothly.

PHYSICAL PLANT

Plans have been approved and bids have been called to be opened on October 7 for a classroom building.

A requisition has been submitted for bids for installation of a fire protective sprinkler system for halls and stairways. October 6 has been set as the date for opening of bids. This installation can be added to as funds permit.

The earthquake did not do any visible damage.

LEGACY

The School has received a mortgage and notes covering sale of one section of land of the Isaac C. Hall estate. We have not yet received itemization of benefits of prior sales. This should be available shortly after final settlement of bequests which take precedence over the residuary legacy. We hope to receive enough to build another house to be rented to teachers as has been done with previous legacies. The return is good, and such residences help in retaining trained teaches. A final accounting will be made before any plans can be considered.

JANUARY, 1960 STUDENTS

The student population is 100 this year. The enrollment divides as follows:

Deaf Girls	34	Blind Girls	19
Deaf Boys	32	Blind Boys	15
Total Deaf	66	Total Blind	34

Last year at the same time the total enrollment was 98.

The Christmas program this year was under the direction of Mrs. Meier and Miss Koetitz. The school auditorium was filled to capacity and an open house was held following the program. The local newspaper carried scenes from the program and a fifteen minute musical program was taped for a radio station for Christmas eve.

School work continues to be of high quality and achievement tests, which

will be given in January, are expected to show good progress.

The strike situation has caused parents of some of the children to have difficulty in furnishing the usual necessities and luxuries for their children. Interested groups have taken care of all needs so that no child has suffered privation during the school term.

HEALTH

The general health of the children has been excellent this fall. There were no epidemics of communicable diseases.

Through the cooperation of Dr. Brinkley, school physician, and the Trudeau Society, all students and staff members were tuberculin tested recently. Final x-ray screening showed all to be free from tuberculosis. Previous testing had showed all to be negative at the time of entry, but periodic examinations are a comfort to the superintendent and to the school physician.

PHYSICAL PLANT

All buildings are in good repair.

The weather has permitted satisfactory progress on the new classroom building. It is quite likely that it will be possible to have the building ready for acceptance and inspection at commencement time.

Within thirty days, the fire sprinkling system will be completed for the hallways and stairways of the main building.

MILK

Until July 1, 1959, the State Purchasing Department called for bids on dairy products for this school under Montana Codes 82-1902, 82-1904, 82-1905, 82-1917. Under this system we received milk at approximately the same price per gallon as Malmstrom Air Force Base.

At the present time, Malmstrom Air Force Base is paying \$.61 per gallon for the same quality of milk for which we are paying \$.77. The reason for the \$.16 differential is that Chapter 192, Laws of Montana, 1959, prohibits milk dealers from bidding on institutional contracts below the figure set by the Milk Control Board for the area.

At the time we presented our budget we had no knowledge that a law would be passed that would increase our milk cost by \$.16 per gallon. Our annual milk consumption is approximately 7,000 gallons. This means our milk bill will be approximately \$1,120.00 more than we had anticipated. We may be able to cut other expenditures and avoid a deficit. Other institutions may not be so fortunate.

The superintendent of the School for the Deaf and Blind was told by the secretary of the Milk Control Board that no consideration could be given to his problem before a public hearing was held for the area.

On December 8, 1959, the head of this School attended a called public hearing for the establishment of minimum prices for fluid milk in market area

VIII. Counsel for some wholesalers objected and the objection was sustained by the referee to presentation of any figures by the State Controller or by this superintendent. A man, who was declared to be a court reporter, appeared to be making a transcript of proceedings. There seemed to be some question if the head of an institution violated some state law by appearing at a public hearing without obtaining permission from the State Board of Education which did not meet between the announcement of the public hearing and the hearing.

At the present time the School for the Deaf and Blind must pay the same price per gallon for approximately thirty gallons of milk per day that would be charged to any person who might want five gallons once a year.

APRIL, 1960

GRADUATION

Commencement exercises will be held on the evening of Friday, May 27. There will not be any graduating class from the department for the blind. The three who will receive twelfth grade diplomas from the department for the deaf are:

Gary Sander, Great Falls

Sharon Skogas, Lindsay

Bonnie Wheeler, Great Falls

HEALTH

Health has been good except for a number of cases of chicken pox. It had been several years since any of our students had had chicken pox. All cases have been mild with no after effects.

All students have had vaccinations, boosters and inoculations brought up to date. Health records are now completed. This has required some correspondence because parents sometimes forget to report contagious diseases which occur during vacation time.

Parents are responsible for dental care and most have cooperated very well so there has not been too much loss of time from school except for emergent dentistry. Parents of several younger children reported they were unable to have dental work done without a general anesthetic. We have recognized their difficulty and have allowed the children to observe one or more other children being treated by the dentist. We have not used force on any of them but they have all assured Mrs. Wallette, our school nurse, that they are big and strong and have gone through with needed treatment. Parents have gladly paid the bills and in most cases the children will not present the same problem again. Young deaf children fear what they do not understand. They can not hear words of explanation and they must be allowed to observe.

SCHOOL WORK

The results of achievement tests show that all children have made satisfactory progress.

One girl, Joan Polson, transferred from the department for the blind to the Flathead County High School last fall with the understanding that she could return if she encountered too much difficulty. She made the honor roll in the junior class.

This is gratifying because eventually the visually handicapped student must attend a college for those with normal vision. If the student can compete with normal students for one or more years in high school, the transfer to college is easier.

GENERAL

Completion and acceptance of the new classroom building has been delayed thirty days due to a delay in delivery of the metal window wall. This has not caused inconvenience since we do not plan to move the classes until fall.

The fire sprinkling system covering all halls and stairways has been completed.

An attached sheet explains our hopes and request to be allowed to build a house with some of the proceeds of the Isaac C. Hall estate.

Funds are available for all salaries as proposed on an attached list.

The budget for 1960-61 shows that we shall be able to operate within appropriations, barring a major emergency.

JULY, 1960 GRADUATION

The three members of the graduating class received their twelfth grade diplomas from Dr. Earl Hall on the evening of Friday, May 27.

Scholarships and awards in the amount of \$530.00 were presented by the Rotana Club, the Social Order of Beauceant, Heisey Foundation, the Civitan Club, and the Montana Association of the Deaf.

PHYSICAL PLANT

All buildings are in good repair.

Before leaving for the summer vacation, teachers and staff members made a written list of repairs and improvements needed for the various departments. These reports were combined to form three typed sheets which were checked with those responsible for making the changes. This system has worked well for us in the past as it avoids duplication of effort.

Mr. Henry Evans, of the State Engineer's staff, inspected and approved the new classroom building on June 29. Final payments may now be made.

It is a pleasure to report that all contractors fulfilled their obligations com-

pletely. The architects and the contractors will have reason to be proud of this building when an open house is held next fall.

FIRE MARSHAL

We appreciate the inspection by the Fire Marshal, and we have complied with his recommendations.

BENEFITS FOR CHILDREN

Perhaps the greatest service that the superintendent of a school for the deaf or of a school for the blind can render to the students, is to point out, at every opportunity, that there is nothing of a charitable nature in the education of the deaf and of the blind.

The children attend the school for the deaf or for the blind to receive the educational benefits which are the right of every educable American child. It is the function of the school to prepare every student possible to become a self-supporting tax-payer. This requires an outstanding staff, capable of preparing students to compensate for a handicap and then to meet the non-handicapped in fair competition.

An institution is fortunate to have organizations or individuals interest themselves in projects, scholastic and otherwise. Any child behaves better and learns faster when he feels someone has an interest in his welfare.

The Montana School for the Deaf and Blind has been fortunate in that the State Board of Education ruled that any gift of more than one thousand dollars should be invested for a regular income as a memorial fund. It has been fortunate too, in the fact that Governors of Montana have sent personal notes of appreciation to organizations making gifts of one hundred dollars or more.

In addition to awards made to students at commencement, the school has received \$1,920.00 return from investments for the use and benefit of the children and gifts of one hundred dollars or more from the following:

Rotana Club of Great Falls

Gamma Delta Chapter of Delta Gamma, Bozeman

Arthur Mutzenberger Memorial Fund

Elizabeth Dayton, Denver

Electric City Junior Women's Club

Civitan Club

Great Falls Police Department in unclaimed bicycles.

This school has received and placed in a fund for permanent investment \$401.95 from the Isaac C. Hall estate and \$1,194.78 in settlement of the Ferdinand Weyer estate for property in Germany. Mr. Arthur Jardine, of the Local Executive Board, has given much time to the handling of the Ferdinand Weyer estate. The American portion of this estate is invested in two houses to produce twelve hundred dollars per year in rental.

Hospital Report

1959—1960

Total Treated in School Hospital by Months

MONTH	OUT PATIENTS	BED PATIENTS	DAYS
Sept., 1959	415	7	11
Oct., 1959	524	7	21
Nov., 1959	506	5	14
Dec., 1959	391	14	17
Jan., 1960	552	9	39
Feb., 1960	555	12	30
Mar., 1960	622	13	60
Apr., 1960	492	4	7
May, 1960	487	6	7
	4544	77	206

All children were weighed every month. All were measured in September and in May. All showed satisfactory increase in height and in weight.

6 new entrants were given complete physical examinations. All tests were negative.

All students and staff members received tuberculin skin tests. All reactors were x-rayed. No active cases were found.

Vaccinations and immunizations were brought up to date for all students.

56 pupils received re-vaccinations.

14 pupils received tetanus series.

22 pupils received diphtheria and tetanus series.

All pupils have had at least three polio shots.

3 graduating students and 1 leaving for employment were given complete physical examinations under the Vocational Rehabilitation program.

1 student was taken to the Rehabilitation Center twice a week for four weeks and once a week for four weeks. She was checked four times by a specialist at the Great Falls Clinic.

1 pupil was taken to the Clinic for a gynecological examination.

2 pupils were taken to the Clinic for complete physicals.

1 pupil was taken to a chiropodist for wart on toe, 6 calls.

10 pupils were taken to an ophthalmologist, 7 for glasses, 3 for check.

14 pupils were taken to dentist, 7 extractions, 20 fillings.

12 pupils received C-R Bicillin.

15 pupils had chicken pox. There were no complications.

There were no operations. There were no fractures.

1 student received a cut forehead which required stitches. He was taken to the Clinic by his mother.

The above report submitted by Minnie H. Walette, School Nurse

Physician's Report

GREAT FALLS CLINIC

1220 Central Ave.

Great Falls, Montana

June 1, 1960

Department of Internal Medicine

Mr. Glenn Harris, Superintendent
Montana School for the Deaf and Blind
Great Falls, Montana

Dear Mr. Harris:

Another school year has passed and each year when I say that this seems to have been the most successful year for this school, medically speaking, I really mean it. This probably could be interpreted that the school has become more medically conscious, and I truly mean this, too. I think I should pause and give credit where credit is due for the fine medical record that the School for the Deaf and Blind has had this past year. There have been no serious illnesses, and because of prompt reporting, illnesses that could have been serious, were treated at such an early stage that they recovered promptly with medicine. You are to be commended for the fine house you keep in order. I would like also, to praise Mrs. Wallette for her very efficient and conscientious nursing care for the children. It makes a tremendous amount of difference how this is done, to the doctor.

We can be very proud of our medical record system now, which includes a complete history and will contain a complete medical record of the child while he is at the School for the Deaf and Blind. We also accomplished the Herculean task of bringing every child up-to-date on his polio, diphtheria and tetanus immunizations. We can also be proud that with the tuberculin testing and chest x-rays which were done to all employees and students alike that no active case of tuberculosis was found.

This is a wonderful record and I know it can be even better next year.

Happy vacation to you all,

Very sincerely,
Joseph W. Brinkley, M.D.

GARY MILES SANDER
Great Falls, Montana

General Information

HISTORY: The School for the Deaf and Blind was established in September, 1893, and until 1937 was located in Boulder, on the same campus as the State Training School. In October, 1937 the school was separated from the Training School and moved to new quarters in Great Falls.

LOCATION: The Montana School for the Deaf and Blind is situated at the eastern city limits of Great Falls. Highway 87 and 89 pass the school at 38th street. The address is 3800 Second Avenue North.

PURPOSE: The school is maintained by the state under the direction of the State Board of Education for the education of children too deaf or too blind to make satisfactory progress in the public schools.

AGE: Pupils between the ages of 6 and 18 are eligible for admittance but no student who has completed high school may be enrolled.

TRAINING: The department for the deaf is conducted by a staff of well-trained experienced teachers. Lip reading and speech are the chief methods of instruction. In addition to regular school subjects offered in all grades through 12, vocational training is provided. Among trades taught deaf boys are: printing, woodworking, general shop; to girls: sewing, dressmaking, domestic science and typewriting.

The School for the Blind is equipped to give academic instruction either in the Braille or sight-saving department. Vocational training and music are on the curriculum.

RESIDENCE: The institution is a boarding school, and is in session from the second Wednesday in September until the second Wednesday in June with exception of Christmas holidays. Day pupils are admitted, but all students are entitled to free board and room.

COST: There is no cost for tuition, books, living expenses or care. Parents are expected to provide transportation for pupils, clothing and approximately \$20 per year for incidental expenses such as shoe repairs, haircuts, toothpaste, etc. Section 1463, Chapter 29 of the Revised codes of Montana provides for county assistance for indigent families.

ADMISSION: Pupils are admitted on trial subject to their physical and mental ability to receive instruction. Upon request, an application blank will be provided by the school. The application must be completely filled out and returned together with a certificate of good health and freedom from contagious or infectious diseases. A transcript of credits or letters from teacher or principal is also required when the pupil is transferred from the public schools.

HEALTH: A resident nurse is on duty at the school at all times and a clinic is provided for children who are ill. Ordinary medical care is provided free and operations and extended treatment must be paid for by parents.

RECREATION: Pupils are given an opportunity for three hours of physical training weekly under direction. Recreation ground and rooms are provided, and school parties, moving pictures and other entertainments are scheduled regularly. Pupils enjoy skating, hiking, basketball, and many other types of recreation. Radios, phonographs and pianos are placed in recreation rooms.

CLOTHING: Uniforms or special clothing are not required. Every garment must be plainly marked in indelible ink or by means of woven name tapes which may be obtained at department stores or mail order houses. Linens, bedding and towels are provided by the school. A list of suggested clothing may be obtained upon request. Clothing is laundered locally.

GENERAL CARE: Supervisors are employed at the school who serve as housemothers and counsellors. Nourishing, well balanced meals are served. There is plenty of milk, butter, vegetables, meat, potatoes and other wholesome food.

VISITORS: Parents, relatives and friends may visit their children as often as they wish. Other visitors are welcomed on school days (Monday through Friday) between the hours of 9:30 and 11:30 a.m. and 1 and 4 p.m. Groups of persons desiring to visit the school may come at the other times by special arrangement. Pupils may go out during weekends, or after school hours with parents, relatives or friends by advising us in advance. However, no pupil is permitted to go except with parents, unless we have written permission from home.
